

# Planes flying too low, too loud and too often over your neighborhood?

**Evidence of the massive corruption surrounding O'Hare expansion has recently been made public.**

- Excessive noise and pollution are impacting the peace and health of hundreds of thousands of residents around O'Hare.
- Exposure to these levels of noise and pollution is linked to heart and respiratory disease.
- 6 million noise complaints through 2018 and no end in sight.

**The worst is yet to come with further airport expansion in 2021!**

## What can you do?

- **Get involved now!** Visit our website [fairchicago.org](http://fairchicago.org) to learn about our solutions.
- **Spread the word.** Engage your neighbors. There is strength in numbers.
- **Sign up for an Airnoise button** on our website to file noise complaints with the city of Chicago.

**Together, we can make a difference!**
